

RED MARINE ALGAE

Finally there is effective nutritional support for people concerned about viruses. There is no cure for viruses. We can however aid our body's natural defense against outbreaks. That is why RMA Plus is a popular choice for people who are looking for a powerful natural alternative to drugs, gels and chemical supplements. RMA Plus is made from two rare marine plants that studies prove contain sulphated polysaccharide compounds. It is these compounds that scientists believe support the anti-viral activities within your body.*
