With a Little Help from the "Divine Tree"...

Brazilians call *pau d'arco* the "divine tree" for its many beneficial properties that help fortify your system. *Jatoba* is a natural fortifier and potent cleanser of both the urinary and respiratory systems.

Another ingredient, *uña de gato* (cat's claw), has been used by Peruvian tribes for more than 2,000 years to ease joint pain, treat the respiratory system, as a kidney cleanser, and to maintain a strong digestive system. *Uña de gato* is considered one of the world's best defense system builders and an effective cleanser of the intestinal tract.

Together, the herbs combined in Arcozon™ contribute essential plant nutrients you won't find in the average daily diet... but they're exactly what you need to create a strong first line of defense.

Build up your immune system with Arcozon™ and live a healthy, energetic lifestyle.
