## The Perfect Blend for Energy & Balance

One of the key ingredients in Sumacazon™, maca root, is used for energy, longevity and fertility. It has also been widely used by athletes to help build muscle mass and strength.

"I had been taking Sumacazon™ for 1-2 weeks. I began to feel very balanced overall. I had energy, stamina and increased muscle strength. I slept sounder and had faster reaction time. My whole metabolism was much more efficient – I felt like I was actually utilizing the food I ate as I was supposed to. Overall, I felt so much happier."

- Debbie Ullman, Clearwater, FL

Another ingredient, suma root, has been used for ages by people of the Amazon, where it's known as "para todo," which means "for everything," indicating the popularity of this herb for general health. In the Western world, suma is used to treat various ailments of the cardiovascular system, the central nervous system, the reproductive system, and the digestive system.

It's also used to alleviate certain hormonal disorders and the symptoms of menopause.

Finally, Sumacazon™ contains muira puama, which has a long history of use by Indigenous people for strengthening the nervous system and providing sexual energy. Three of the most respected scientific authorities on medical herbalism - including Dr. James Duke Ph.D, chief of the USDA's Medical Plant Laboratory - recommend muira puama.
